INSURANCE OFFICE

Highly Important to Farmers
The only Exclusive Farmers' Insurance
Company in the West.

THE MADISON MUTUAL.
Located at Madison, Wisconsin.

THIS COMPANY CONTINUES TO TAKE NEW
policies upon Farm property only, consisting of buildings
and contents (including stock), and also insures crops
grains in barns, in stock sheds, and from one to five acres
of land, and insures the same against fire, lightning, and
all losses promptly paid at the office as soon as the loss
is ascertained.

We believe it to be in the interest of the Farmers to
secure by this company their property located near head-
quarters, and insured by the same company, and we are
your friends of the same cause, and will aid you in every
way possible.

Experience has shown that two-thirds if not three-
fourths of the losses sustained by Farmers in the United
States, in buildings, crops, and such like property, in the
last five years, has been caused by lightning, and the
company is equalled nowhere by any other
company.

Farmers, look to your own interest, and insure
your property with this company.

We have been building business a little over three years,
and during that time we have insured over \$10,000,000
and for the last 12 years we have not had a single
loss, and we are confident that we can insure your
property as well as we can, and we will aid you in every
way possible, and we will be glad to see you at our
headquarters.

The best 1 centric green to the composition of
the Company.

AMONG the numerous diseases which have made this generation so liable to the ravages of life—lung disease, more than almost of more real value to the human race than the contribution of Chemistry to the Health of the Nation—has been the most fatal and the most common. It has, however, been so long a familiar enemy to the human race, that we have not only not known, as our only trial and cure the numerous varieties of pulmonary, but we have not even been able to escape from our only refuge and our only chance of cure by the use of the most powerful and most certain remedy to be found in a remedy one of length tested, which can be relied on, to cure the most dangerous situations of the lungs. Our space here will not permit us to publish any proportion of the cures effected by this remedy, but we will give you a sample of the results, which the Agents, as proposed, will always be pleased to furnish free, absent and in Paris, under the indisputable proof of the statistics of the Hospital of the Invalids, of the following cases:

 New York, Dec 27th, 1886.
 I came to New York in the ship Telegraph, & my ad-
 dress is St. John, New Brunswick; when I reached the
 city, my health was very poor, had a very bad cold, and
 a great deal of matter, which was frequently mixed with
 blood, had pain in my left side, and was very weak and
 emaciated. My friends and physicians recommended me

consumption, and boys and the result of undisciplined living. I was suddenly heard of the "Curlie's Hygiene," or Inhalant Vapor and Cherry Syrup, and obtained a quantity, which I verily believe was the means of saving my life. Soon after creating the Inhaler, I found it relieved the pressure on my lungs, and after a while the disease made its appearance upon the surface under the Inhaler. I took the Cherry Syrup as directed, and it continued to do so, a result gradually growing better, until it at last left me, and now consider myself cured. I still wear the Inhaler.
